TEST COMMENTS: *This site has never had any beans planted as Ray is a dairy farmer. It is also close to the farm yard so it gets plenty of manure. The beans were very tough and made for a slow harvest day. The plants were very tall up 56" tall. There was lodging throughout the whole plot. The disease pressure was minimal. Ray also said that he was lucky in that the heavy rains missed him for the most part this year.*

† See last page for abbreviation descriptions. Results in **bold** are significantly above test average by LSD (0.10). **ns** = column values not significantly different.
