TEST COMMENTS: *This site was lost due to drought. June, July and August were very hot and dry. Rainfall at this location was 14 inches below normal during the growing season. Many varieties struggled to even set pods, the few that did set pods had shriveled soybeans inside and were discolored.*

† See last page for abbreviation descriptions. Results in **bold** are significantly above test average by LSD (0.10). **ns** = column values not significantly different.
