TEST COMMENTS: *This site was planted into a clean seedbed. Plants emerged quick due to warm weather. June, July and August brought hot, dry weather. A few September rains did fall on this site. Plants were short but standing well. Harvest was delayed due to persistent October rains. Weed control was very good.*

† See last page for abbreviation descriptions. Results in **bold** are significantly above test average by LSD (0.10). **ns** = column values not significantly different.
