TEST COMMENTS:

Planted no-till in a green cover crop, soil conditions were excellent. Rainfall came at just the right time through the summer, not often but when it rained it soaked the soil. Disease pressure was light, but some gray leaf spot and tar spot came in late in the season. Standability was great, there was maybe only one broken stalk in the entire plot. The only lodging ratings for the plot were some tops going out. The overall rating for the plot is a 9 out of 10. (10=best)
